

Cal 25 - Window Replacement

From: Sean <Sean@rehmkeandFlynn.com>

??? Cecilia

Subject: Window Replacement

I am looking for the company that makes the port-lights called Mark Plastics. Any guess on if they are still around?

From: John Shumaker johnshumaker2@gmail.com

Repair/Response:

Here's Mark Plastics contact info and a link to his website below. Cost for all (6) Cal windows was \$910.00 including windows, fasteners, caulk and shipping, all you need except the tools. I was very impressed by the whole experience and their fit, (...I did have a saber saw to enlarge the wholes a bit. After that they fit like a glove).

Having given them their first "test" in the Bayview North Chanel Race (55+ miles with winds over 35mph), there was plenty of time under water and not a drop of leak. My wife and I had them done in 6 hrs total. The box for packaging / freight was most impressive. Good guy. Worth the buy.

Follow-up

I contacted Mark Plastics today and wow! What a great guy to work with. I will certainly order my windows from them. Thanks you all your help in connecting us!

Best ,
Sean Flynn
